Vidat

Step 1: Buy The Domain

The first step towards turning this idea into realistic dream is to purchase the domain (vidat.com). It is currently registered to Enom Inc. And at the time of writing this it will expire in 20 days time.

Step 2: Where to Buy it

The domain will be purchased on cloudflare because they are and must be reliable service providers.

Step 3: Buy VPS Hosting on Google Cloud or Aws Cloud

These top 2 are among the best when it comes to cloud storage offering even though their services are mostly costly.

After successfully purchasing the VPS Hosting, then?

Step 4: UX Design / Hire Person or Make a Team

Next, is the design of the platform's both mobile and web interface. We'll get back to windows, mac and other interfaces.

Different ideas will be put into practise, and the best light-weight, and supposed to be user-friendly UX design will be selected.

Then?

Step 5: Implementation of the UX

In this step, the aforementioned selected designed UX from step 4 will be implemented by the developers. Latest and industry leading programming languages, will be used.

And three separate algorithms will be created. One: for the "For You Feed" where only different videos and mostly short and long form will appear. Two: for the "Family Friends Feed" where users can be able to interact fully with family and friends (close-group) through videos. And these FFF will be off search engines. Three: for the "Post, Ask, Feed" it will consist blog-writing interface where users can share thoughts, ask questions, share articles in long and short form and they will be indexed.

Step 6: Testing and Pre-Release Test

This is the step where test will be carried out before initial release of the app and website to the public.

Step 7: Registration, Legal Process and Others

This is the step where legal process and registration will be covered. The platform will be a subsidiary of Ahamat Nigeria Limited.

Step 8: Gradual Development

This is the stage where organic process will be used to develop the platform at home first before entering other places. It will start with organic development to paid after the start-up is funded.

Step 9: We will see it

KNOWLEDGE FAQ

What is Vidat?

Vidat is a Video and Text based platform where users can be able to post videos from short to long-form, and create posts, ask questions and interact with other users.

Why Vidat

The name is generated from Video and Text. And it will be used when the time has come.
